SERVICES:

- **Drain Clearing & Cleaning**
Our state of the art combined jetting & Vacuum Tankers are capable of jetting pipes with diameter ranges from 40mm to 1000mm. Also included in the service is Drain and Culvert Clearing. Use of high pressure jetting equipment. Unblocking of drains, sinks and toilets and electromechanical services.
- **Industrial Tank Cleaning and Decommissioning**
Our highly trained staff are some of the most experienced in the industry. With a track record of over 20 years, their expertise covers everything from the smallest domestic to the largest industrial tanks.
- **Interceptor Service & Cleaning**
Our state of the art tankers can empty interceptors with minimal fuss at a far more efficient pace than many of our competitors. We provide schedules to meet all of our client's needs. We will contact you whenever your servicing is due in order to ensure you remain compliant with regulations and so your business runs at optimal efficiency.
- **Roof Area Cleaning and Emptying**
Our tankers can perform to their highest capabilities and remain virtually silent in comparison to other machines of its type. This enables us to provide out of normal hours calls to hotels and residential areas with little to no disruption. Our speed and attention to detail make us the preferred provider of waste collection and disposal in our industry.

- **Grease Trap Cleaning**
Complete Environmental Services can attend to all of your grease trap disposal requirements, regardless of size. We have experience in the removal of grease from shops, restaurants, hotels, supermarkets, canteens and factories. We offer a collection programme to ensure your planned and preventative maintenance is scheduled around your business.
- **CCTV Drain Surveys**
Full CCTV drain survey services to detect blockages, breakages and cracks. A full report and DVD is issued for every survey.
- **Line Jetting**
Our high powered combined jetting & Vacuum Tankers are available to private, commercial and local authority customers for: jetting of pipelines, root cutting, cleaning of road gullies and clearing of minor and major floods. We are available 24hrs a day 7 Days a week to help solve any emergency.
- **Scheduled & Out of Hours Collections**
We can set up a regular collection schedule with you to ensure timely and efficient collection of your waste. To avoid disrupting the efficient running of your business we can arrange to collect your waste at a time that suits you.
